1. Hi-Tech Pets

Hi-Tech Pets

Part One of a Two Part Series

Copyright © OurDogHouse

Keep track of your canine companion at all times with the GlobalPetFinder. With the latest gps and wireless technology, you can build a virtual fence of any size around your pet. If your pet wanders outside the boundaries you set, you are notified on your computer or cell phone. While in the walk mode, you can safely walk and travel outside of the fenced areas. If you become separated, you can find your pet's location by dialing F-O-U-N-D from your cell phone or PDA. GlobalPetFinder will also allow you to check on your pet's location at any time, notify you when the batteries are low and can also notify you when temperatures become too hot or cold for your pet. The device easily slips onto collars and harnesses. For all the details on this new device, visit their website

If you would like to reprint this article for your newsletter or magazine, please contact us at info@ourdoghouse.com
