Dog Friendly Work Place

Dogs and the workplace.....One usually does not associate the two together, but what if you could bring your best friend to work with you? If you said yes, you are not alone nor is the thought so farfetched. In a recent survey, conducted by Dogster and Simply Hired, 66% of the dog owners polled said they would be willing to put in longer hours if they were allowed to bring Fido to work. 49% would be more than willing to switch jobs if the new work place allowed their pet.

Check out the link below if you would like to find companies in your area that are dog friendly.

Animal Poison Control Center

It is something no one ever wants to think about, but the fact is the most common pet emergencies stem from poisoning. Are you aware

there is an animal poison control center? There is and it is available 24 hours a day. You may want to keep this number with other important emergency contact information.
